Starring one of my favorite characters, Bristlefrost!

Personally I wouldn't have minded Bristlestar, but eh, I like Squirrelstar.

Also, the sentence "What the-" describes Hawky boi perfectly.

9

I- Thrushpelt, just so you know, you have a load of sympathizers and fangirls and AUs... and I'm one of them...

Warriors just forget about interactions and family relationships I guess

For example, Tigerstar could've visited Tawnypelt and Mothwing in their dreams but did he ever mention them? Nooo, because only sons are important.

I think they did a pretty good job on Squirrelflight's love for her kits, but I feel like they used remembering Hollyleaf's death as an excuse for Jessy to not be a love interest anymore.

Honestly Jessy needs more love, Bramble just used her like how Squirrel used Ashfur, but she didn't go all 'I will burn your kits now'

44

sign me up

That...is amazing.
